Loved the game, had us all in stitches. would really love to play this over the internet though :D very very very fun. Playing this game with 4 years old son and wife.

This is the only game we can play the whole family for hours :)

Thanks a lot!. im still a disappointment lmao. PUTT PU PU PUTT PUTT!

THIS GAME REALLY DEFINES WHO YOU ARE AS A PERSON, LIVE IN THE MOMENT AND BECOME A PURPLE CAR WHO SOMEHOW ENDS UP IN SPACE, AS SEEN IN ALFONSO CUARON'S GRAVITY, THE ONE WITH SANDRA BULLOCK AND THAT OTHER GUY IN IT. OH THE GUY IS GEORGE CLOONEY

TL;DR this game is♥♥♥♥♥. not very beautiful graphics on the backgrounds, the characters are well drawn, and the backgrounds seem to be all in an hour

If you don't love dungeon crawlers, you probably shouldn't bother with this one. There isn't much in the way of substance, and the game tries to make up for this with ample amounts of fanservice.

With that said, the game does not take itself seriously. There are several instances of the game making fun of itself, as well as the characters doing the same. The humor provided by these instances makes it more than worthwhile.

I personally enjoy dungeon crawls and am more than accustomed to not having extravagant animations during battle or really anywhere else. However, the character portraits are animated during cutscenes, at least to the degree of a higher-quality visual novel. The game is nice to look at (to say nothing of the lewd scenes), which is always a nice treat in a dungeon crawler.

The music is nothing to write home about, and sometimes even grating. The voice acting is well done however (though bear in mind it is in Japanese), and the VAs adequately portray their characters in any given situation.

Definitely not a game to pick up for thrilling or engaging story, or cutting-edge gameplay, but for the price, it's a great dose of humor and dungeon-crawl/fanservice fun.. A classic point and click game intended for the younger "gamers".

and as such:

100% positive as there is good balance of not to much and not to little to explore.

Great sound work that I am sure are will make the younger "gamers" wanting to play this over and over infinitum...

The art style is maybe a bit to simplistic for an older gamer like myself but non the less I will remember this title as something positive.. Love the art style, it looks fantastic. Overall a fun little game. It can be quite challenging too, made me sweat a little bit.. A fun twin-shooter that reminds you that bouncing is a blast. A definite recommend to shmup fans ^\_^
